## Abstract Advisory Information

Security issue affecting the product ManageEngine ADSelfService Plus, a secure, web-based, end-user password reset management and single sign-on solution.

This solution helps domain users to perform self-service password reset, self-service account unlock.

A service exposed by the software allows anonymous person to perform a Server Side Request Forgery attack.

Authors: Dominique Righetto

## Version affected

Name: ADSelfService Plus

Versions: 5.6 Build 5607

## Common Vulnerability Scoring System

5.3  
CVSS:3.0/AV:N/AC:L/PR:N/UI:N/S:U/C:N/I:L/A:N

## Patches

The vulnerability is patched in version 5.7 Build 5703

## References
