## Abstract Advisory Information

A service exposed by the application accepts a set of user-controlled parameters that are used to act on the data returned to the user. It allows a basic user to access to data unrelated to its role.

Author: Dominique Righetto

## Version affected

Name: Archibus Web Central

Versions: 2022.03.01107

## Common Vulnerability Scoring System

6.5

CVSS:31/AV:N/AC:L/PR:L/UI:N/S:U/C:H/I:N/A:N

## Patch

none
