CVE-2015-4596 CVE-2015-5384	Abstract Advisory Information	
CVE-2015-5462	The application uses, behind the scene and once the user is authenticated, a technical user to perform operations against the database. This technical user has access to more information than	
CVE-2015-5463 CVE-2015-5606	the authenticated user. It is possible to retrieve the credentials of this user to access to all the	
CVE-2016-1159	information of the system.
